Registers annual turnover of INR 3086 crores and
Profit before tax of INR 202.66 crores in FY 2024-25

Announces a dividend of 20 % on Equity Capital

8th May Chennai / Mumbai:

Financials:

Today, Southern Petrochemical Industries Corporation Ltd. (SPIC), one of India's pioneering agri-nutrient and fertilizer companies, announced its annual audited results for FY 2024 – 25.

Quarterly and Annual Results:

Particulars	figures in INR crores			
	Quarterly (Jan – Mar)		Annual (Apr-Mar)	
	31-03-25	31-03-24	31-03-25	31-03-24
Total Income	759.44	132.46	3100.25	1962.16
Profit Before Exceptional Item	20.64	* 4.32	202.66	* 191.60

*Excluding Exceptional Item.

In the last quarter of FY 25, the Company registered an income of INR 759.44 crores and Net Profit before exceptional item of INR 20.64 crores compared to an income of INR 132.46 crores and Net Profit before exceptional item of INR 4.32 crores during the corresponding quarter of the previous year.

In the year ended March 2025, the Company earned a total income of INR 3100.25 crores compared to INR 1962.16 crores during the previous year. During the year, the Company recorded a net profit before exceptional item of INR 202.66 crores vis-a-vis net profit before exceptional item of INR 191.60 crores in the previous year.

The Board of Directors has recommended a dividend of 20 % (Rs. 2 per share) on Equity Capital of the Company. (as compared to 15% of dividend declared in the previous financial year)

Leadership Comment:

Mr. Ashwin Muthiah, Chairman – SPIC & Founder Chairman, AM International, Singapore, said:

“Our performance in the last quarter and full year of FY25 has been strong both in terms of topline and profitability. It reflects our focus on disciplined execution, cost efficiency in raw material sourcing—particularly the shift to natural gas—and sustained market leadership.

We will continue to drive growth, focusing on our ESG goals and delivering long-term value.

I thank the government for future-oriented policies and initiatives like 'One Bharat One Fertiliser', which is helping us meet the needs of Indian farmers through more scientific and sustainable products."

Fertilizer sector overview:

In FY25, India's fertiliser industry recorded its highest-ever sales, reaching **655.94 lakh tonnes**, marking a **9.2% increase** compared to FY24. In the latter part of the year, the use of complex fertilisers rose due to a **shortage of di-ammonium phosphate (DAP)**. Consequently, domestic manufacturers ramped up production by **importing raw materials** and customising formulations to meet market requirements.

The sector also witnessed **technological advancements** during the year. Aligned with the Government of India's **Viksit Bharat** vision, a nationwide campaign is promoting the use of **nano fertilisers** such as **Nano Urea** and **Nano DAP**. Additionally, the adoption of **drone-based spraying** and **battery-operated sprayers** for fertiliser application gained momentum during the year under review.

Looking ahead, in FY26, fertiliser consumption is expected to grow by 2%-3% in FY25 due to an above-normal monsoon. Besides, adequate reservoir level the increase in fertiliser demand will be supported by upward revision in Minimum Support Prices (MSPs) for major Kharif & Rabi crops, and increased area under cultivation.
