SPIC announces results for the second Quarter and Half year ended 30th September 2025
Achieved a turnover of ₹1598 crore and
PBT of ₹170 crore for H1 FY26

14th November 2025 Chennai / Mumbai:

Financials:

On 13th November 2025, Southern Petrochemical Industries Corporation Ltd. (SPIC), one of India's pioneering agri-nutrient and fertilizer companies, announced its second quarter results for the period ended 30th September 2025.

Particulars	(Rs. in Crores)		
	Six months ended 30 th September 2025	Six Months ended 30 th September 2024	FY 2024-25
	Unaudited	Unaudited	Audited
Revenue from operations	1597.92	1513.92	3086.33
Other Income	43.05	3.67	13.92
Profit Before Exceptional Item	170.40	127.43	202.66

During Q2 FY26, the Revenue from Operations was Rs.817 crore with a PBT of Rs.81.22 crore as against Rs.760 crore and Rs.48 crore, respectively for the corresponding period of last financial year.

The revenue from operations and profit for the quarter and half year ended 30th September 2025 have been maintained at the same level as compared to results for the corresponding period of last financial year.

The Company had in earlier years lodged insurance claim for Rs.85.06 crore towards damages due to floods and received an amount of Rs.55.18 crore as at 30th September 2025 and claim for Rs.20.79 crore is under process.

In addition, an amount of Rs.20.10 crore included in the other income for the quarter and H1 FY26 pertain to claim on Loss of profits from Insurance company due to shut down of operations from December 2023 to March 2024 as a result of floods.

At the last AGM held on 23rd September 2025, the shareholders have approved the declaration of 20% dividend on the equity shares of Rs. 10 each of the Company (aggregating to Rs.40.73 crore) and accordingly the said equity dividend have been paid to shareholders on 16th October 2025, subject to deduction of taxes.

Leadership Comment:

Mr. Ashwin Muthiah, Chairman – SPIC, commented:

“The buoyant quarterly results reflect the company’s continued commitment to serving the Indian farmer community while maintaining operational efficiency. The increase in turnover and significant improvement in profitability compared to the corresponding quarter last year demonstrate disciplined execution and a focus on profitable growth.

Our CAPEX initiatives are progressing on schedule and we aim to continue this momentum. Our commitment to ESG-driven manufacturing and the adoption of natural gas as a key raw material supports our goal of environmentally sustainable manufacturing.”

Fertiliser Industry Update:

The last few months have marked significant progress in India’s fertiliser landscape, highlighting the sector’s focus on productivity, innovation, and farmer welfare. The fertilizer consumption has increased due to increased area under cultivation. The downward revision of GST by the Government of India has driven the consumption of essential agrochemicals to improve the returns from farming.

During Kharif the consumption of Urea increased by 2% due to enhancement of net area sown which has increased by 0.6%.

The timely upward revision of concession on nutrients through NBS Policy for rabi season reassures the promise on the farming economy. The vibrant fertilizer monitoring system of the Department of Fertilizers continues to ensure the availability of the fertilizers across the nation supporting the cropping.
