SPIC begins supply of indigenously manufactured urea in TN

TNN | Dec 1, 2022, 04.37 PM IST

CHENNAI: Southern Petrochemical Industries Corporation (SPIC) has become the first company in Tamil Nadu to commence supply of the indigenously manufactured urea, "Bharat Urea", under the Centre's 'One Nation One Fertilizer' policy.

A statement said the urea bags, with the new design prescribed under the 'One Nation One Fertilizer' policy, would carry information about the production cost, maximum selling price including taxes and subsidy offered by the Union government. It will continue to maintain the same quality to nourish crops with the valuable nutrient for growth, nitrogen.

The leading fertilizer manufacturer in Tamil Nadu is also the first company in the country to supply 'Bharat Urea' in multi-coloured logo as prescribed by the department of fertilizers, the statement added.
